```

```
    <p>Dune tells the story of Paul Atreides, a brilliant and gifted young man born into a great destiny beyond his understanding, who must travel to the most dangerous planet in the universe to ensure the future of his family and his people. As malevolent forces explode into conflict over the planet's exclusive supply of the most precious resource in existence—a commodity capable of unlocking humanity's greatest potential—only those who can conquer their fear will survive.</p>
```

```
    <p>The film explores themes of politics, religion, and ecology through the journey of Paul as he navigates the complex social and political landscapes of the desert planet Arrakis, home to the fearsome sandworms and the valuable spice melange.</p>
